

Name : \_\_\_\_\_

4-6 - Lesson Plan #4

## Recycling Research

Use the following questions to help guide your research on your chosen recyclable material or object. (Use separate paper or note cards for your answers.)

1. The material or object I chose is \_\_\_\_\_.
2. What objects are made with this material or how is this object used?
3. From where does this material or object originate?
4. Where does the material/object go to be recycled?
5. What are the steps involved in recycling the object?
6. What can the material be made into?
7. How does recycling this material benefit the environment?
8. Cite the resources used in gathering the above information.
